Detailed Action

This is the third Office Action corresponding to amendment filed Oct 21, 2008. The amendment has been entered. The finality of the rejection of the last Office action is withdrawn; a new non final action follows.

The text of those sections of Title 35, U.S. Code not included in this action can be found in a prior Office action.

Claim Rejections - 35 USC § 102

Claims 9 and 14 are rejected under 35 U.S.C. 102(b) as being anticipated by Turner. The patent to Turner discloses a receiving means (23) attached to a wall, a fixing means (11) attached to an item, and an engaging means received into an opening, or hole of the item. Again, Applicant is reminded that the housing is not a positive element of the instant invention.

Claims 9 and 14 are rejected under 35 U.S.C. 102(b) as being anticipated by Holmes (20030038222). The patent to Holmes discloses a receiving means (24), an engaging means (opening on item 35), and a fixing means (fastener received into the engaging means). The housing is not a positive element of the invention.

Claim Rejections - 35 USC § 103

Claim 15 is rejected under 35 U.S.C. 103(a) as being unpatentable over Holmes. To substitute a screw for the fastener shown by Holmes, which appears to be a nail,

would be considered obvious to those skilled in the art. Screws and nails are mechanical equivalent securing means.

Allowable Subject Matter

Claims 11-13 are allowed.

Claims 9/12, and 9/13 would be allowed if part 9/14 of the claim is deleted.

Allowable Subject Matter

The examiner apologizes for indicating that claim 9, now presented as claim 14 was allowed over the art of record. This was a typographical error that the examiner did not realize up until now. The examiner regrets any inconveniences to Applicant and/or his counselor.
